

<p><u>Experience and Outcomes</u></p> <p><i>I use practical materials and can 'count on and back' to help me to understand addition and subtraction, recording my ideas and solutions in different ways.</i></p> <p><i>MNU 0-03a</i></p> <p><u>Learning Outcome</u></p> <p>Pupils will use a range of natural materials to develop their understanding of counting and addition.</p>	<p><u>Resources</u></p> <p>Chalk</p> <p>Natural resources (leaves, sticks, rocks)</p>
<p><u>Activity</u></p> <ol style="list-style-type: none"> <li>1. Children will be asked to gather in a group on the group. They will be asked to pair up with a partner.</li> <li>2. The partner will be provided with the chalk and the other child will be the one who has to collect the natural materials.</li> <li>3. The teacher will explain to the children that she is going to shout out a simple addition sum. The children will have to work together to get the answer. The child with the chalk will have to write the sum and the other child will have to collect the correct number of natural resources (sticks, rocks, leaves) to represent the numbers within the sum.</li> <li>4. The children will work together for each sum given to them by the teacher and will sit down beside their sums once they have got the answer.</li> </ol>	<p><u>Assessment</u></p> <p>The children should be able to display their understanding of counting and addition. The children will be observed and assessed by the teacher whilst completing this task and evidence will be captured through a photo on the class Ipad.</p>
